MEDIATION

Weber Mediation ♦ 18219 58th Ave NE, Kenmore, WA 98028
Founder, Mediator July 2014 – present

Conducting mediation services for matters involving personal injuries, wrongful death, malpractice, premises liability, work site accidents, product liability, IFCA, subrogation, aging services, and home owners' association matters. I am also willing to entertain any other highly charged emotional disputes. In my background as a trial attorney I participated in over 400 mediations and settled even more cases on my own. I am a certified mediator through the Dispute Resolution Center of King County after attending their intensive 40-hour training program. I am a member of the ADR committee for the Washington State Bar Association and am a consultant for a mediation group called PREM_i in Michigan.

TRIAL ATTORNEY

CNA Staff Counsel Office, Seattle, WA 2005-2014

As staff counsel for CNA I handled a wide variety of matters for this commercial and professional lines carrier including personal injury, premises liability, wrongful death, healthcare provider malpractice, dental malpractice, work site injuries, motor vehicle accidents, product liability, construction defect, aging services, subrogation matters, and numerous home owners' association matters. I attended hundreds of mediations while with CNA and settled hundreds of other cases through direct negotiations. While at CNA I developed a reputation for being fair, reasonable, trustworthy, and willing to negotiate, but I also tried 2-3 cases per year that could not be settled. I gained valuable insight into what information an insurance company needs in order to settle a case.

Reed McClure Law Firm, Seattle, WA 2003-2005

I handled mostly insurance defense cases while at Reed McClure that involved motor vehicle accidents, premises liability matters, or product liability cases.

Phillips & Webster Law Firm, Woodinville, WA 1998-2003

At Phillips & Webster I handled plaintiff and defense cases, most of which involved motor vehicle accidents or slip and fall incidents. I tried over 20 cases during this time frame.

EDUCATION

Michigan State University, BA 1989
Michigan State University, JD 1998 cum laude
